34DB HIGH GAIN TV ANTENNA

Designed for Outback TV reception

The Majestic UFOXL is the larger version of the UFOX this antenna has been designed to give you improved performance in fringe areas. The UFOXL is packed with a powerful 34dB Gain amplifier built into the antenna which when combined with a larger surface area gives the UFOXL exceptional long range reception.

Designed for RVs, Caravans, Motorhomes and camper this antenna comes with 360 degree omnidirectional reception this antenna gives you a reliable signal regardless if you are in an area with vertical or horizontal signal in the outback or metro area.

The UFOXL comes with 10m of TV Coax cable, external junction box, instruction manual, mounting base and connectors to make for an easy installation.

Supported with our international 3 year warranty you can be assured that the quality and performance exceeds expectations.
